

Lantania will be attending SIEE Pollutec, the biggest water sector trade fair in Africa

- The fair will be held from 20th-23rd June at the CIC (International Conference Centre) in Algiers

Madrid, 16 June 2022. Lantania will be participating in the 17th edition of the International Exhibition of Water Equipment, Technologies and Services, SIEE Pollutec. It is the biggest annual water sector exhibition in Africa and will take place from 20th-23rd June at the International Conference Centre in Algiers. The event will bring together 6,500 professionals, decision-makers and opinion leaders who will have the chance to discover a wide range of equipment, technologies and services, which will be presented at the stands of 200 exhibitors, manufacturers, distributors and service providers.

The infrastructure, water and energy group will also have a stand at the show and will present its products and main water industry activities. The stand will also provide a networking space for professionals attending the event.

An 'International Water Forum' will be held at the fair to exchange experiences and the results of technical and scientific research. One of the main objectives of this meeting is to enable the implementation of cooperation initiatives between the different stakeholders. Different topics and innovations related to water will be discussed: seawater desalination, wastewater treatment and reuse, product quality and innovation, among others. The programme includes keynote lectures, as well as oral and poster presentations.
